Vienna and current research projects on the musical diversity in the capital of Austria will be one focus. Studies from other parts of the world - Lisbon, Berlin, New York, Chicago, Calcutta - will contribute to a global perspective. Ethnomusicologists from Europe and the USA have been invited to participate by giving presentations and joining the panel discussions. One final Roundtable will explore ethnomusicological contributions to the management of urban musical diversity. A concert will present some of Vienna's minority music activities.

Concept Cars Jan 16 2020 No auto show is complete without them. They're crowd pulling and invariably extravagant, zany, way-out, and created with no apparent consideration for cost. And, in the eyes of some, taste. But for all the entertainment value of the visually striking concept car, it does, nevertheless, have a serious role to play. For the car manufacturer it provides an invaluable opportunity to gauge the public's reaction to radical design initiatives before putting them into production. With environmental considerations moving increasingly to the fore, the newest generation of aerodynamically honed concepts is also of

particular significance for featuring creative alternatives to the long-running internal combustion engine. This usually takes the form of emissions-free electric power which is either used in isolation or in hybrid form, when it works in harmony with miserly fueled gas or diesel units. The concept car is now well over 50 years old, and author Jonathan Wood charts its evolution from General Motors' landmark Y-Job of 1939, through the dream cars of the 1950s, and so to the present day. This highly illustrated book will fascinate car enthusiasts of all ages and provide a pointer to the sort of vehicles that will be on our roads well into the 21st century and beyond.

Alfa Romeo T33/TT/3 Aug 23 2020 The Alfa Romeo T33/TT/3 was produced by Alfa's Autodelta racing department, under the guidance of Carlo Chiti, to compete in the 1972 World Championship for Makes. Hopes were high, as the previously dominant Group 5 racers (including the Porsche 917s and Ferrari 512s) had been outlawed in favour of 3-litre Group 6 cars, such as the Alfa. However, the Alfas struggled to take the fight to the well-developed and reliable Ferrari 312PBs, though scored regular podium positions. The highlight was a second place in the epic Targa Florio Sicilian road race, where Helmut Marko put in a stirring drive to come within seconds of victory. Marko was driving chassis 115.72.002, the most successful of the T33/TT/3 chassis Alfa Romeo T33/TT/3 tells the full story of the T33/TT/3, with an emphasis on the fascinating history of chassis 115.72.002, which competed in seven world championship rounds in 1972. The car would later have a unique second career on the race circuits and hill climbs of Greece, before racing in Japan and South Africa prior to an eventual return to Europe, where it is still a frequent competitor in historic events. The unique history and success of 115.72.002 makes it a worthy addition to Porter Press's acclaimed Exceptional Cars series.

Automobily: jména, značky a znaky Apr 18 2020 Jakou výbavu měla speciální série vozů Aston Martin, nazvaná Alfred Dunhill? Jak souvisí logo Maserati s fontánou z 16. století? Je slovo Aero spojeno jen s českou automobilkou, nebo najdeme vozy tohoto jména i v jiných částech světa? Co přesně jsou „daňové koně“? Vymysleli název Citroën Elysée Číňané? Jak ovlivnil vývoj automobilového průmyslu fakt, že zakladatelé značek Ferrari a Lamborghini spolu nevyházeli? Ing. Jiří Fiala (publicista, automobilový historik a sběratel automobilové literatury) a doc. Petr Strossa (vědec, expert přes jazyky a dorozumívání s počítači) předkládají všem automobilovým fanatikům unikátní výkladový slovník jmen značek a jejich typů, který obsahuje hesla o přibližně 1600 značkách a více než 5000 typech a modelech. Čtenáři v knize najdou mimo jiné základní informace o výrobcích automobilů, jejich filozofii označování typů, používání interních kódů či recyklování názvů vozů. Dozvědí se, proč se jeden automobil prodával pod různými názvy, proč se některá jména nesměla používat nebo jakých dosáhly jednotlivé vozy sportovních úspěchů. Vůbec poprvé je u nás pak publikován systém kódů sovětských vozidel a přehled čínských značek a výrobců. Zvláštní pozornost je věnována znakům (logům) všech důležitých značek, jejich vzniku a proměnám v čase. Celá tato speciální problematika je navíc zasazena do kontextu společenských a geopolitických událostí a okořeněná množstvím pozoruhodných historek a kuriozit souvisejících s auty, jejich jmény a výrobci.
