Leisureguy's Guide to Gourmet Shaving the Double-Edge Way Jan 20 2023 It's a perfect gift for Father's Day, Valentine's Day, birthdays, graduations, and bar mitzvahs---and a particularly apt gift for men who shave daily but when asked whether they actually enjoy shaving answer, "No. I hate it!" Give them this book so that they can look forward eagerly to their next shave---and that is not an exaggeration. Men who have just started DE shaving frequently write that they wish they could shave more than once a day and look forward eagerly to the next shave. This is the seventh edition of the complete beginner's guide to traditional wetshaving---brush, shaving cream or soap, and using a safety razor with double-edged blade. It's a major update of the previous edition: longer, with new sections and new information. It covers not only the basics of how to shave with a double-edge safety razor, but also DIY projects and guidelines on collecting. Reviews of new razors and other shaving products are included, and the appendix now includes over 150 on-line vendors as well as forums and reference sites. The book provides excellent guidance for beginners putting together their first shaving kit and discusses tradeoffs in the options for the initial purchases. Traditional shaving is enjoyable and thrifty: double-edged blades are as low as 7 each---a year's worth of shaves for \$3.50---compared to the same amount spent for one single disposable multiblade cartridge. The recommended beginner razor, the Parker 24C, can last a lifetime and uses a head that is both very comfortable and also very efficient, when used according to the

techniques described in the book. The multiblade cartridge's tug-and-cut action often results in skin irritation, razor bumps, in-grown hairs, and razor burn---thus all the "protective" shaving preparations and "soothing and healing" aftershaves now offered. Most men with these skin problems decide that they have "sensitive skin," never realizing that the problem is their daily use of a multiblade cartridge with its tug-and-cut action, made even worse by the shaver pressing hard to try to extend the life of the (expensive) cartridge. The book also includes a chapter on shaving and skin problems, including information on how DE shaving can help those who have acne as well as how to cure and prevent razor bumps and in-grown whiskers. The book is a complete instruction manual and guide for those just beginning DE shaving, and it also includes links to a host of resources on the Web that complement the book.

Romanesque Sculpture An Ecstatic Art Dec 15 2019 Architectural sculpture, virtually abandoned for five hundred years following the demise of the Roman Empire, was revived on the portals of Romanesque churches in eleventh and twelfth-century France and Spain. Long overdue is a reappraisal of those images whose aesthetic of rendering the invisible visible establish them as valuable witnesses to the culture of Europe in the Middle Ages. Countless losses, mutilation through wilful destruction, centuries of accumulated grime, and a dearth of studies in English have impeded the deserved realization and appreciation of these magnificent works of art. Through illustration and illuminative interpretation, Romanesque Sculpture An Ecstatic Art fills the void by tracing the beginnings, maturation, and efflorescence of monumental sculptured facades in the short-lived Romanesque era. Depictions on them are mirrors of the age: sophisticated theological messages, monastic life, the cult of relics, pilgrimages, crusades and politics. The survey considers too the sculptors, mostly anonymous, who in adapting models from several media - both antique and current - created a unique visual vocabulary. The beauty of the sculptures comes to the fore. The stones live ...

Reading Shaver's Creek Aug 23 2020 What does it mean to know a place? What might we learn about the world by returning to the same place year after year? What would a long-term record of such visits tell us about change and permanence and our place in the natural world? This collection explores these and related questions through a series of reflective essays and poems on Pennsylvania's Shaver's Creek landscape from the past decade. Collected as part of The

Ecological Reflections Project—a century-long effort to observe and document changes to the natural world in the central Pennsylvanian portion of the Appalachian Forest—these pieces show how knowledge of a place comes from the information and perceptions we gather from different perspectives over time. They include Marcia Bonta’s keen observations about how humans knowingly and unknowingly affect the landscape; Scott Weidensaul’s view of the forest as a battlefield; and Katie Fallon describing the sounds of human and nonhuman life along a trail. Together, these selections create a place-based portrait of a vivid ecosystem during the first decade of the twenty-first century. Featuring contributions by nationally known nature writers and local experts, *Reading Shaver’s Creek* is a unique, complex depiction of the central Pennsylvania landscape and its ecology. We know the land and creatures of places such as Shaver’s Creek are bound to change throughout the century. This book is the first step to documenting how. In addition to the editor, contributors to this volume are Marcia Bonta, Michael P. Branch, Todd Davis, Katie Fallon, David Gessner, Hannah Inglesby, John Lane, Carolyn Mahan, Jacy Marshall-McKelvey, Steven Rubin, David Taylor, Julianne Lutz Warren, and Scott Weidensaul.

An Edge in the Kitchen Jan 16 2020 Why are most of us so woefully uninformed about our kitchen knives? We are intimidated by our

knives when they are sharp, annoyed by them when they are dull, and quietly ashamed that we don't know how to use them with any competence. For a species that has been using knives for nearly as long as we have been walking upright, that's a serious problem. *An Edge in the Kitchen* is the solution, an intelligent and delightful debunking of the mysteries of kitchen knives once and for all. If you can stack blocks, you can cut restaurant-quality diced vegetables. If you can fold a paper airplane, you can sharpen your knives better than many professionals. Veteran cook Chad Ward provides an in-depth guide to the most important tool in the kitchen, including how to choose the best kitchen knives in your price range, practical tutorials on knife skills, a step-by-step section on sharpening, and more—all illustrated with beautiful photographs throughout. Along the way you will discover what a cow sword is, and why you might want one; why chefs are abandoning their heavy knives in droves; and why the Pinch and the Claw, strange as they may sound, are in fact the best way to make precision vegetable cuts with speed and style. *An Edge in the Kitchen* is the one and only guide to the most important tool in the kitchen.
