Cara Befana, Ma Come Ti Vesti? Oct 17 2022 Una favola per tutti i bimbi dai 5 anni in su. La Befana del pianeta Bonzo-Kukù è vanitosa. Ama vestirsi alla moda e non le va proprio giù di indossare abiti vecchi e stracciati per andare a consegnare le calze ai bimbi. In più, è una pazzarella: infatti porta le calze piene di cioccolatini ai bimbi cattivi e le calze piene di carboni ai bimbi buoni! Il suo gatto, Lollobrivido, cerca di farle cambiare idea, ma non ci riesce. Quest'anno, però, succederà qualcosa che cambierà tutto. Divertiti a scoprire cosa! [Il libro non contiene illustrazioni] L'autrice Caterina Saracino è nata a Bari nel 1982 ma vive da anni nelle Marche. Si è laureata in Comunicazione d'Impresa, ha studiato scrittura creativa e sceneggiatura e lavora per un progetto europeo. Mamma di Leonardo e amante della lettura, della musica e dell'arte, si dedica da tanti anni alla scrittura. Con "Grigio" ha vinto il Premio della Critica 2014 al Literary Pegasus Award, patrocinato dalla Presidenza della Repubblica. Fire in the Minds of Men Dec 07 2021 This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

Survive Coronavirus Aug 23 2020 *Survive Coronavirus*, is written by Kevin L. Michel, a Performance Psychology Consultant, based in New York City. Without governmental action, ultimately, up to 80% of some populations shall be infected with Coronavirus, which causes COVID-19. With effective governmental action, that percentage can be significantly reduced. The countries that shall do best, are the countries where the government was most prepared. Similarly, for those most at risk, the individuals who shall do the best, shall include the ones who were most prepared. Now is your time to prepare. You should avoid the virus as best you can, but you must also prepare for the worst. What shall you do if you get COVID-19? What steps shall you take to improve your odds of survival? This book is your guide in case you are infected with the Coronavirus, or if you suspect that you have been infected. The book is valuable for those who want to be prepared well in advance of such an event. Read the book today, because with the fatigue of an infection, you may not have the energy to read later, when it becomes most necessary. Be prepared now, for the worst. *Survive Coronavirus*, begins with standard public guidelines gathered from the top governmental agencies, such as the NIH, CDC, and NHS, and then progresses to guidelines from the author on what you should do to give yourself the best chance of survival if/when infected by the Coronavirus. An equation of survival is provided in the third chapter, breaking down the fundamental behaviors and factors that may determine whether you live or die. This equation gives the reader a sense of control, and provides actionable steps to win the battle before you. From the author: I went out for a run today, which was my one-a-day form of exercise during the Stay-At-Home order currently in NYC. I ensured that I maintained social distancing, weaving around the handful of other runners and pedestrians, ensuring that I never got too close. I live in Astoria, Queens, and I made a left on 30th Avenue, past the major hospital – the Mount Sinai Medical Center. Then I saw it. The giant, white, refrigerated truck that is to be used to store the bodies of the dead. I had seen it mentioned on CNN earlier, but it is so eerie to see it in person. I write this book with the best of intentions, to be helpful to you, and to be helpful to me. I have done my best to locate valid and helpful research, and to logically consider the challenge ahead, and present these insights in a relatively brief and readable format – but I am not a medical professional. There are real risks to life here – this pandemic is real. Having seen the truck, I know that if I fail, that shall be where it ends. I want you to be prepared, and I want you to have a strategy if you do get infected. This book is for us both.

The Porthole Feb 15 2020 Fiction. Translated from the Italian by Beppe Cavatorta and Polly Geller. Recipient of the 1966 "Ferro di Cavallo" prize for a first novel, THE PORTHOLE was a highly praised and controversial debut. Pulling together diverse elements from the musical experiments of Cage, Schnebel and Kagel, the pictorial innovations of assemblage and pop art, x-rated comics, and dialogue from horror and World War II films, Spatola liberated his narrative from the stultifying edifice of Italian prose. The Porthole remains even more important today for its remarkable achievement in that fertile period of experimental literature. A co-publication of Otis Books/Seismicity Editions and Agincourt Press.

Old Befana and the Candy Factory Nov 18 2022 A sweet picture book that tells the untold story of Old Befana (beloved character of an Italian Christmas folk tale). A sweet Xmas tale, perfect for kids and children who really love Christmas, candies and chocolates! Some strange animals are emptying all the sugar beet fields. Sugar can no longer be produced and the world is destined not to taste sweets anymore! Fortunately, Old Befana has a plan... The Befana wakes up early in the morning. Putting on her glasses and the torn dressing gown, she walks to the kitchen. She has breakfast with a bowl of soup with bread and hot milk; as she eats, she looks at the trees and the roofs of the houses covered with snow... A lovely Christmas book for children 5 - 11 year olds. Better reading for everybody: Open Dyslexic Font.

Handbuch Der Typografie Mar 30 2021 The origin of the ubiquitous typeface Celebrated printer and type designer Giambattista Bodoni set the standard for printing the alphabet with his *Manuale Tipografico* (1818). The two-volume set--published posthumously in a limited edition of 250--features 142 sets of roman and italic typefaces, a wide selection of borders, ornaments, symbols, and flowers, as well as Greek, Hebrew, Russian, Arabic, Phoenician, Armenian, Coptic, and Tibetan alphabets. Official printer for the Duke of Parma, Bodoni (1740-1813) declared that well-designed type derived its beauty from four principles: uniformity of design, sharpness and neatness, good taste, and charm. His typefaces display an unprecedented degree of technical refinement, and epitomize purity and grace. The culmination of more than four decades of work, the *Manuale Tipografico* represents one of history's greatest typographical achievements. The Bodoni typeface is still widely used even today, both in digital media and in print, and TASCHEN's meticulous reprint of Bodoni's masterwork gives readers a rare opportunity to explore the origins of the Bodoni typeface and learn about its creator.

Billion Dollar Brand Club Sep 23 2020 A leading business journalist takes us inside a business revolution: the upstart brands taking on the empires that long dominated the trillion-dollar consumer economy. Dollar Shave Club and its hilarious marketing. Casper mattresses popping out of a box. Third Love's lingerie designed specifically for each woman's body. Warby Parker mailing you five pairs of glasses to choose from. You've seen their ads. You (or someone you know) use their products. Each may appear, in isolation, as a rare David with the bravado to confront a Goliath, but taken together they represent a seismic shift in a business model that has lasted more than a century. As Lawrence Ingrassia--former business and economics editor and deputy managing editor at the New York Times--shows in this timely and eye-opening book, a growing number of digital entrepreneurs have found new and creative ways to crack the code on the bonanza of physical goods that move through our lives every day. They have discovered that manufacturing, marketing, logistics, and customer service have all been flattened--where there were once walls that protected big brands like Gillette, Sealy, Victoria's Secret, or Lenscrafters, savvy and hungry innovators now can compete on price, value, quality, speed, convenience, and service. Billion Dollar Brand Club reveals the world of the entrepreneurs, venture capitalists, and corporate behemoths battling over this terrain. And what fun it is. It's a massive, high-stakes business saga animated by the personalities, flashes of insight, and stories behind the stuff we use every day.

Liber Coloniarum - The Book of the Colonies Mar 10 2022 The study of ancient Roman land surveyors and the Roman system of property boundaries was carried out in the nineteenth century mainly by German scholars. One of them was Karl Lachmann who published *Gromatici*

Veteres (The Ancient Land Surveyors) [Lachmann 1848], a compilation of texts that address aspects of ancient surveying which are fundamental to Civil Engineering as we know it today. Most of the original texts, as published by Lachmann and with some corrections proposed by Thulin [Thulin 1913], was published together with the English translation by Campbell [Campbell 2000]. A complete re-proposal of Lachmann's text with the Italian translation was recently proposed by Giacinto Libertini [Libertini 2018]. An important part of this collection of texts, the Liber Coloniarius (The Book of the Colonies), together with a rich cartography illustrating the modern persistences of the ancient agrarian boundaries, was subsequently published by the same author [G. Libertini, Liber Coloniarius - Libro delle Colonie, Istituto di Studi Atellani, Frattamaggiore (Italy), 2018]. In order to allow an understanding of this text for a wider audience, it was necessary to have an English translation, which is offered in this work. The Introduction provides a fascinating description of the ancient Roman surveying and setting of boundary signals. The author has also applied Google Earth® and a special software to many of the Roman settlements in the Lazio and Campania regions to define the property grids (centuriationes and strigationes) that are in Italy from Rome to Nocera Superiore (near Salerno). As with the title of this book, many of the technical descriptions presented here are left in the original Latin. The reader is directed to the Glossary for the meaning of the Latin terms used. Tuscany Jun 01 2021 From the minute they look out of their window in the morning to their last nightcap at the bar, Tuscans, like most Italians, are thinking about food. In Tuscany, Katie and Giancarlo Caldesi take readers on a culinary journey through a Tuscan day, to discover the delicacies of the region and the stories behind them. The book opens with a section on 'skills from the Tuscan kitchen', immersing us in the very place that it all begins, and teaching you the foundations of Tuscan cooking: the essential stocks, sauces and flavour bases. We are then taken through breakfast, lunchtime, aperitivo and dinner, with pasta and gnocchi, secondi, contorni and a dolce for every single month of the year. Set against a backdrop of undulating hills, Tuscany takes you on an adventure across this diverse landscape, exploring the traditions and cooking techniques that make this food so extraordinary.

Cultural Links Between Portugal and Italy in the Renaissance Apr 18 2020 Cultural contacts between Portugal and Italy, the two most innovative European areas in the 15th and 16th centuries are rarely systematically explored. Both were to influence the whole world for the next five hundred years: Portugal by its voyages of discovery and establishment of a world empire, and Italy by its reworking of the classical tradition and the rebirth of its arts. This book maps the cultural interconnections, exchanges, and influences between the two, their individual chronologies and priorities, similarities and differences.; The volume's three emphases are originality, interdis.

The Habsburg Empire 1700-1918 Jan 08 2022 This is the eagerly awaited second volume of Jean Bérenger's history of the Habsburgs. It covers the last two centuries of their rule and provides a compelling account of the fluctuations of Habsburg dynastic power and its disintegration after World War One. Bérenger gives a rich portrait of Habsburg greatness under Maria Theresa and Joseph II and shows how their successors proved more adroit at riding the tide of nationalism in their multi-ethnic empire than is often recognised.

Designing with Smell Aug 15 2022 Designing with Smell aims to inspire readers to actively consider smell in their work through the inclusion of case studies from around the world, highlighting the current use of smell in different cutting-edge design and artistic practices. This book provides practical guidance regarding different equipment, techniques, stages and challenges which might be encountered as part of this process. Throughout the text there is an emphasis on spatial design in numerous forms and interpretations – in the street, the studio, the theatre or exhibition space, as well as the representation of spatial relationships with smell. Contributions, originate across different geographical areas, academic disciplines and professions. This is crucial reading for students, academics and practitioners working in olfactory design.

Making Way in Corpus-based Interpreting Studies Oct 25 2020 This book presents a collection of state-of-the-art work in corpus-based interpreting studies, highlighting international research on the properties of interpreted speech, based on naturalistic interpreting data. Interpreting research has long been hampered by the lack of naturalistic data that would allow researchers to make empirically valid generalizations about interpreting. The researchers who present their work here have played a pioneering role in the compilation of interpreting data and in the exploitation of that data. The collection focuses on both of these aspects, including a detailed overview of interpreting corpora, a collective paper on the way forward in corpus compilation and several studies on interpreted speech in diverse language pairs and interpreter-mediated settings, based on existing corpora.

The Memory of Evil Sep 04 2021 Everything started from that day. The memory of 31 August 1969 has been at the back of Commissario Michele Balistreri's mind for over four decades. It was not only the day that preceded Colonel Muammar Gaddafi's seizure of power in Balistreri's birthplace of Libya, drastically altering his and his country's destiny, but that on which his beloved mother Natalia fell to her death, and the resulting suicide verdict that Balistreri - now Head of Homicide in Rome - has always suspected to be a flagrant cover-up for her murder. The memory of 23 July 2006 has been at the front of investigative journalist Linda Nardi's mind for the past five years. Ever since her and Balistreri together thwarted a phantom-like killer stalking Rome, Nardi has been intent on shedding further light on the Vatican Bank's shadowy involvement in the abominations uncovered that summer. But now Linda will find her attention diverted to an equally irresistible assignment: the collapse of Colonel Gaddafi's forty-two year dictatorship. The Memory of Evil is the earth-shattering finale to Roberto Costantini's internationally bestselling trilogy, in which one woman will encounter a long-entombed truth in the rubble of Gaddafi's Tripoli: unearthing a conspiracy neither she, nor the man it was designed to protect, will ever be able to erase from their minds.

From Seed to Plate Jul 22 2020 The best way to get fresh, tasty ingredients is to grow your own. Italians have known this for centuries, and no Italian house, apartment, school or office is complete unless it has a little bit of space in which to grow tomatoes, herbs, salad leaves and whatever else can be crammed in. From Seed to Plate covers that very Italian tradition of growing to cook, using recipes handed down from cook to cook, often through generations. Paolo Arrigo shares his family's practical traditions and 'passione' for food, guiding readers on the best varieties to grow, offering growing tips and explaining how all the resulting delicious produce should be best prepared, cooked and preserved. Including recipes from Paolo's own family, delicatessens, favourite restaurants and chefs such as Georgio Locatelli, Antony Worrall-Thompson, Rose Prince, Hugh Fearnley Whittingstall and many more, this is a book that persuades us to look at food in a different way - the Italian way.
