THE INDIAN LISTENER Aug 24 2020 The Indian Listener (fortnightly
programme journal of AIR in English) published by The Indian State
Broadcasting Service, Bombay, started on 22 December, 1935 and was
the successor to the Indian Radio Times in English, which was published
beginning in July 16 of 1927. From 22 August, 1937 onwards, it was
published by All India Radio, New Delhi. In 1950, it was turned into a
weekly journal. Later, The Indian listener became "Akashvani" in January
5, 1958. It was made a fortnightly again on July 1, 1983. It used to serve
the listener as a Bradshaw of broadcasting, and give listener the useful
information in an interesting manner about programmes, who writes
them, take part in them and produce them along with photographs of
performing artists. It also contains the information of major changes in
the policy and service of the organisation. NAME OF THE JOURNAL: The

**Exceptional Weierstrass Points and the Divisor on Moduli Space
that They Define** Dec 08 2021 A procedure for studying divisors on the
moduli space of curves of genus g is presented. We study the
divisor defined as the closure of the set of all points corresponding to
curves possessing exceptional Weierstrass points of a certain type. Its
class is expressed as a linear combination of other standard divisor
classes previously introduced by Mumford. In addition, the behavior of
Weierstrass points near singular curves is also studied.

Storia del Giappone Jan 17 2020 Il Giappone è una realtà
culturalmente distante che sfida la nostra conoscenza e le nostre
categorie interpretative. Convinzioni e pregiudizi alimentano spesso una
visione distorta, dimostrando come la sua percezione in termini di
'Estremo Oriente' continui ad agire a molti livelli della nostra
comprensione. Con una metodologia storiografica innovativa, questo
libro riduce le distanze narrando la storia del Giappone nei suoi aspetti
economici, sociali, politici e culturali, dalle origini sino ai giorni nostri.
La parte finale si concentra sulle recenti trasformazioni che hanno
peraltro contribuito a ridisegnare la fisionomia della società giapponese
nel nuovo millennio: dalle nuove strategie in politica interna ed estera al
disastro della centrale nucleare di Fukushima, dai mutamenti nel mondo
del lavoro a quelli nella struttura familiare e negli stili di vita.

Violenza delle parole parole della violenza Nov 07 2021 La
tematizzazione della violenza comporta l'assunzione della sua
dimensione culturale, mutevole nello spazio e nel tempo, e della sua
connaturata ambiguità, poiché la violenza si ascrive spontaneamente alla
categoria del "male" ma può essere giustificata in nome di un "bene" o
del "Bene". Superato il concetto di "civiltà" pregiudizialmente
etnocentrico (prerequisito necessario ma non scontato), al cui vaglio
ancora soggiace certa lettura dei fatti umani, la violenza perde i
connotati dell'eccezionalità. Appare come elemento permanente e
invasivo della storia umana, come una componente intrinseca ai
comportamenti pubblici e privati, individuali e collettivi, quasi un dato
impresso nel patrimonio genetico dell'umanità. In quest'ottica ogni
cultura non può che incontrare varie forme di violenza e con esse
variamente relazionarsi, per gestirle, neutralizzarle, indirizzarle,
istituzionalizzarle, eventualmente fruirle. D'altra parte la violenza
dell'essere umano non può essere ricondotta, in nome della sua
riconosciuta generale pervasività, a mero fatto biologico, ad attitudine
istintuale e animalesca, né liquidata come silenzio della coscienza, poiché
trova sostanza nello "scorrere ininterrotto di pratiche, discorsi, parole e
gesti costitutivi e costituenti". Questo libro propone una riflessione
articolata e multidisciplinare sul tema della violenza verbale, cioè
individuabile nella comunicazione orale e scritta, letteraria e mediatica,
privata e pubblica, in modo esplicito ma anche implicito o neutralizzato.
L'obiettivo è quello di cogliere aree di intersezione e contiguità come
elementi di rottura, registrabili nel passaggio fra una lingua e l'altra, ma
anche fra diversi contesti storico-culturali, nella convinzione che
maturare una più profonda coscienza della comunicazione sia strumento
indispensabile per "incontrare" l'Altro.

The Use and Development of the Xinkan Languages May 13 2022 Once
spoken only in Santa Rosa Department, Guatemala, the Xinkan language
family is unique within Mesoamerica, comprising four closely related
languages that are unrelated to any of the other language groups used
within the region. Descriptions of Xinkan date to 1770 but are typically
only sketches or partial word lists. Not even the community of indigenous
people who identify as Xinka today—the last speakers—have had access
to a reliable descriptive source on their ancestral tongue. Preserving this
endangered communication system in accurate, thorough detail, *The Use
and Development of the Xinkan Languages* presents a historical
framework, internal classifications, and both synchronic and diachronic
descriptions, incorporating all elements of grammar based on extensive
unpublished data collected in the 1970s by Lyle Campbell and Terrence
Kaufman. This valuable contribution is enhanced by author Chris
Rogers's emphasis on contextualizing the findings. Introducing the
languages, Rogers presents important information regarding the social
and cultural milieu of the speakers. He also traces a phonological
reconstruction of Proto-Xinkan and reconstructs historical morphology
and syntax. These revelations are of particular interest because the
development of Xinka and the many aspects of Xinka morphosyntax have

not been well understood. A sample text, "Na Mulha Uy," is included as well. Solving numerous complex, centuries-old linguistic puzzles, The Use and Development of the Xinkan Languages unlocks new potential for the rediscovery of a rich cultural history.

Phonetic and Phonological Aspects of Geminate Timing Oct 18 2022

Using acoustic studies of Bernese, Hungarian, Levantine Arabic and Madurese, the author argues that differences in geminate timing are ultimately correlated with whether a language is syllable-or mora-timed.
