Maritime Work Law Fundamentals: Responsible Shipowners, Reliable Seafarers Jan 09 2022 The importance of international maritime labour law - both as a component of - ternational maritime law, and in socio-political and economic terms - has been recognised by the IMO International Maritime Law Institute for a number of years. Indeed, the Institute has annually organised a course on maritime labour law with the participation of inter alia the International Maritime Organization, the - ternational Labour Organization, the International Transport Workers' Federation, and the German Shipowners' Association. It was therefore a great pleasure when the authors invited me to introduce their

forthcoming monograph on Maritime Work Law Fundamentals: Responsible Shipowners Reliable Seafarers. As the title suggests, a fundamental challenge of this branch of international maritime law is to achieve a balance between the interests of the two main stakeholders. Institutionally, the effort to achieve this balance dates back a number of decades with its genesis mainly found in the work of the International Labour Organization. It has to be said that whilst this effort achieved great progress, it has led to a haphazard, plethora of legal instruments.

International Medical Guide for Ships Jan 21 2023 This publication shows designated first-aid providers how to diagnose, treat, and prevent the health problems of seafarers on board ship. This edition contains fully updated recommendations aimed to promote and protect the health of seafarers, and is consistent with the latest revisions of both the WHO Model List of Essential Medicines and the International Health Regulations.--Publisher's description.

The Insiders' Guide to Becoming a Yacht Stewardess 2nd Edition Feb 10 2022 Since 2006, The Insiders' Guide to Becoming a Yacht Stewardess has been a must-read guide for hopeful, young travelers and those intrigued by a career path in the super-yacht industry. Hundreds of yacht crew in the industry today used Julie's book to get started--and succeed--working aboard yachts. Entertaining and educational, this book not only covers who owns luxury yachts, where they travel, and what taking care of their eccentric owners is like, but it describes the awe-inspiring benefits of the job, the skills required, and a clear-cut roadmap for how others can do it, too. If the terrific pay and benefits that come from accompanying celebrities and dignitaries on their private journeys around the world appeals to you, consider Julie Perry your new career coach. Let her guide you to the sea of opportunity that awaits young travelers in one of the world's most adventurous and mind-boggling industries: LUXURY YACHTING.

Human Resources and Crew Resource Management Jan 29 2021 The TransNav 2011 Symposium held at the Gdynia Maritime University, Poland in June 2011 has brought together a wide range of participants from all over the world. The program has offered a variety of contributions, allowing to look at many aspects of the navigational safety from various different points of view. Topics presented and discussed at the Symposium were: navigation, safety at sea, sea transportation, education of navigators and simulator-based training, sea traffic engineering, ship's manoeuvrability, integrated systems, electronic charts systems, satellite, radio-navigation and anti-collision systems and many others. This book is part of a series of six volumes and provides an overview of Human Resources and Crew Resource management and is addressed to scientists and professionals involved in research and development of navigation, safety of navigation and sea transportation.

RYA Commercial Regulations for Small Vessels (G-G105) Oct 26 2020 Anyone who ventures afloat while operating commercially needs to be aware of their responsibilities to the vessel, those around them and the environment. This book covers these responsibilities and has been split into the following three sections: The Legal Framework Regulation of Vessels The Skipper & Crew Filled with essential information, it will help the reader understand and execute their duty of care, and gives the principles, guidance and techniques to make the right choices and decisions for

all craft operating commercially from small RIBs up to 200gt vessels. The book is designed to accompany the new RYA's Professional Practices and Responsibilities course and is written by Simon Jinks, a former RYA Chief Cruising Instructor and an acknowledged authority in the field of small vessel training and safety management.

The Maritime Labour Convention 2006: International Labour Law Redefined Dec 28 2020 With the Maritime Labour Convention now in force (as of August 2013), the shipping industry is faced with a new international convention that has comprehensive implications across all sectors. This vital text provides timely analysis and thought-provoking essays regarding the Convention's application and enforcement in practice. Hailed as the "Seafarer's Bill of Rights" and the "fourth pillar" of the international regulatory regime for quality shipping, the Maritime Labour Convention is set to significantly alter the playing field for key stakeholders. This book offers diverse and interesting commentary in respect of the Convention's impact on core sectors of the shipping industry, identifying both strengths and weaknesses of the Convention, as well as potential hurdles that will need to be overcome. Each chapter focuses on a different aspect of the Convention, ranging from individual rights of the seafarer to challenges of flag State implementation. Special attention is given to enforcement through examination of the innovative measures provided in the Convention itself, along with discussion of domestic enforcement mechanisms in certain States. Furthermore, the book evaluates whether the Convention has filled existing gaps in maritime labour law, resolved prior difficulties or created new problems. This book expertly addresses issues of fundamental importance to national authorities, shipping professionals and associations, maritime lawyers and academics worldwide. ---In memory of Richard Shaw---

Handbook for Marine Radio Communication Feb 27 2021 Now in its seventh edition, this bestselling Handbook for Marine Radio Communication provides an incomparable reference source for all vessels using maritime radio communication systems, which are now a legislative requirement. It includes exhaustive coverage of all UK and international regulations relating to modern maritime communications,

such as the crucial GMDSS, all contained within one singular volume. This edition has been fully updated to account for recent major developments in the field. The authors deliver an authoritative guide to the complicated and changing world of radio communications, including:

- Information reflecting ITU Radio Regulations 2020
- Impending modernisation of the GMDSS
- Radical changes to maritime satellite communications and associated distress and safety services
- Introduction of VHF data exchange system (VDES) to supplement coastal AIS services
- Introduction of navigational data (NAVDAT) to supplement NAVTEX services
- Improvements to COSPAS/SARSAT systems
- Introduction of AIS facility to EPIRBs
- Automatic link establishment (ALE) on HF bands
- Updating of global navigation satellite systems (GNSS)
- UK explanatory memorandum to the Merchant Shipping (Radiocommunications) (Amendment) Regulations 2021.

This is a definitive guide for today's maritime communications industry, including ship owners, ship managers, coast guards, seafarers, students of maritime communications, as well as the recreational sector.

The Seamanship Examiner Jul 03 2021 The complete study and revision guide for the International Standards of Training, Certification and Watchkeeping (STCW). For all ranks and serving crew in the mercantile marine, this study pack covers everything students need to revise when preparing for the oral assessment taken as part of the Deck Certificate of Competency at either junior or senior levels. Since publication of the first edition, there have been many new innovations throughout the industry. This guide is fully updated to reflect these changes and includes practice questions on International Safety Management (ISM), Electronic Chart Display and Information Systems (ECDIS) and the International Code for the Security of Ships and Port Facilities (ISPS), as well as hundreds of additional tutorial questions throughout the book and the accompanying interactive CD. This edition of The Seamanship Examiner has been fully updated with the latest amendments to the COLREGs and is a trusted study aid for all international STCW Deck Officer candidates including Officer of the Watch, Chief Mate and Master positions, plus those working coastal and inland waters in the fishing industry such as Deck Officers.

The Code of Federal Regulations of the United States of America Aug 04 2021 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

Nautical Jobs Hunter May 01 2021 This pocket book was projected initially during a conversation with one of my best friends which name is sandro pizarro (restaurant manager in uk) which known's my life and career at sea, land, hotels, restaurants, bars, clubs, etc and give it to me the idea to publish a initial step career at sea / land which i accepted straight away, as i never heard about a book like this one, a book which is providing information of all the positions onboard luxury ocean cruises, yachts, ferries, hotels, information which certificates, diplomas, courses

each person as to take before starting a career at sea / land, in hospitality departments, deck departments, information how to look for jobs safely without been catch in the middle of a scam in the internet, my advise is never pay to anyone to get a job, all the companies have them career website areas, they provide information which agents they have in each single country and agencies plus concessionaires. Here on this book you can learn how to proceed with your career safely and easily. All the certificates can be taken in any country, normally the schools are located more near the sea, but there's a few in the center of the countries also. Don't forget, when you are applying, send your cv to as many contacts as you have, if they delay to answer, keep trying, show your interest. When onboard, be responsible, on time on service always, the job is hard but gratefull and you have the gift to visit many countries and get payed for it, think about, but the most important is that you love what you do and you will do anything to succeed in your career. I wish you now very good luck in your future and please also check for the nautical jobs hunter 2-cruise career guide book which as thousands of company contacts all over the world. Www.Authorhouse.Co.Uk / www.Authorhouse.Com (Usa) God bless you all. Sergio constantino

Law of Yachts & Yachting Nov 14 2019 The book is the first comprehensive treatise on the law relating to yachts and provides its readers with a thorough analysis of maritime law as relevant to the superyacht sector. Written by a team of leading yachting practitioners and researchers, it covers the legal issues arising during the life of a yacht. The book is written for the legal practitioner, yacht-broker and manager concerned with the operation of professionally crewed yachts including financing, registration, chartering, insurance, compliance and casualty management. Key Features - •This is the first and only practitioners' book on the area •It covers all major aspects of yachting law in a single book •The Law of Yachts and Yachting is highly comprehensive - despite its main focus on contract and tort law, it contains references to public law and international law and practice •References to case law, English, foreign and international •Appendices containing essential source materials

Cartner on the International Law of the Shipmaster Dec 08 2021 This unique book rethinks and rewrites the previous edition. It categorises simply the nine interactive legal duties of the shipmaster, analysing and relating them to laws and conventions within a single volume. Cartner on the International Law of the Shipmaster contends that command depends on decision-making, and that shipmasters are not provided sufficient, timely, relevant, and pertinent information for command decisions. The book proposes voyage planning follow the spacecraft model of the USA's National Aeronautics and Space Administration, providing readers with a metric for command. It constructively criticises the conventions and management and is aimed at reducing catastrophes by focusing on the hitherto elusive human factor in the shipmaster. Cartner proposes that command at sea be its own profession and discipline with those called to it specifically trained in its intricacies; he argues that current ships are not designed to be command-worthy or security-worthy and that management should reorder its relationships with shipmasters as tactical managers afloat. The insights the book provides are an invaluable aid to decision making for the modern civil commander and anyone association with this pivotal and essential profession. This book is a necessary reference and guide for shipmasters, technologists, naval architects, regulators, underwriters, students, practitioners and courts of maritime law and command worldwide.
